

ABSTRACT OF THE DISCLOSURE

[0102] A system and method for accepting a recipient identifier, wherein the recipient identifier can be used to identify an electronic mail (email) recipient; generating a petition based on the recipient identifier and at least one petition rule, wherein the at least one petition rule includes at least one of: 1) a sender identification method; and 2) a recipient; and wherein the petition can be used by a email provider to allow a recipient to receive email from a sender.
